

## **Title V Pre-Application Meeting**

### **Items for Discussion**

- Construction (NSR) permits and waivers issued since the last Title V permit issuance, and affected emission units or controls (including anticipated/actual construction, startup, and testing dates)
- Construction (NSR) permit applications currently in the works, and any projects anticipated in the next ~2 years
- Any updates to plans (such as preventative maintenance plans) attached as an appendix to the Title V permit, if applicable
- Compliance Assurance Monitoring (CAM) plans, if applicable
- Proposed periodic monitoring or monitoring conditions that are problematic/impractical in your current permit
- Facility wide estimated emissions, including GHG PTE
- Questions about the application forms
- New/revised NSPS and NESHAP that may apply
- Compliance issues
- Application due date
- Electronic permit application transition
